# HOME OFFICE

<sup>IT</sup> Un progetto nato per rispondere alle nuove esigenze dell'abitare contemporaneo e dal desiderio di pensare a case sempre più flessibili, dove vivere e lavorare in ogni momento. Soluzioni d'arredo capaci di integrarsi in modo versatile a più contesti, dai grandi spazi dedicati allo studio ed al lavoro, fino ai piccoli angoli con soluzioni salvaspazio, assolvendo a più funzioni: dallo smart working all'e-learning fino a momenti di relax e condivisione. Abbiamo esplorato un nuovo modo di interpretare il lavoro e la vita domestica grazie all'uso di sistemi trasversali che garantiscono funzionalità ed una sensazione autentica di home feeling.

<sup>ES</sup> Un proyecto nacido para responder a las nuevas exigencias del vivir la casa de hoy día y del deseo de pensar en hogares cada vez más flexibles, donde vivir y trabajar en todo momento. Soluciones de mobiliario capaces de integrarse de forma versátil en diferentes contextos, desde los grandes espacios dedicados al estudio y al trabajo, hasta los pequeños rincones con soluciones para ahorrar espacio, cumpliendo varias funciones: desde el teletrabajo hasta el e-learning llegando a los momentos de relax y del compartir. Hemos explorado un nuevo modo de interpretar el trabajo y la vida doméstica gracias al uso de sistemas transversales que garantizan funcionalidades y una sensación auténtica de home feeling.

<sup>DE</sup> Ein Projekt, das entstanden ist, um die neuen Anforderungen von zeitgemäßem Wohnen zu erfüllen und aus dem Wunsch heraus, immer flexiblere Wohnungen zu erschaffen, in denen das Leben und Arbeiten in jeder Situation möglich ist. Einrichtungslösungen, die sich vielseitig in verschiedene Kontexte einfügen, von großen Räumen zum Lernen und Arbeiten hin zu kleinen Nischen, die platzsparende Lösungen mit mehreren Funktionen erfordern: vom Smart Working und E-Learning bis hin zu Momenten der Entspannung. Durch die Verwendung übergreifender Systeme haben wir für das Arbeiten und Leben in den eigenen vier Wänden eine neue Interpretationsweise gefunden, die einerseits Funktionalität gewährleistet und andererseits dafür sorgt, dass sich die Bewohner wirklich zuhause fühlen.

<sup>EN</sup> A project conceived to meet the new needs of contemporary lifestyles and out of a desire to imagine increasingly more flexible homes, for living and working at any time of day. Furnishing solutions for versatile integration with different interiors, from large space for studying and work, through to small corners with space-saving multi-purpose solutions: from smart-working to e-learning through to chilling and sharing. We have explored a new way of interpreting work and home life thanks to the use of multi-use systems that guarantee functionality and a real feeling of being at home.

<sup>FR</sup> Ce projet est né pour répondre aux nouveaux besoins de l'habitat contemporain et au désir de concevoir des maisons toujours plus flexibles, où il est possible de vivre et de travailler à tout moment. Proposer des solutions d'ameublement capables d'intégrer de manière polyvalente de nombreux contextes, depuis les grandes surfaces dédiées à l'étude et au travail, jusqu'aux petits espaces multifonction qui font office de solutions gain de place pour le smartworking et l'apprentissage, jusqu'aux moments de détente et de partage. L'exploitation de systèmes transversaux nous a permis d'explorer de nouvelles modalités d'interprétation du travail et de la vie domestique afin de garantir fonctionnalité et sensation authentique de home feeling.
